Product Description

Ariens Professional Mountaineering Edition - Snow Blower - 926521

An exclusive Ariens® technology, the RapidTrak™ system is an adjustable tracked or wheeled machine designed to give users unrivaled power and versatility for any condition. RapidTrak maintains traction even against high snow piles on hilly or slippery pavement while its wheeled setting provides quick, effortless maneuverability on flat surfaces. Its intuitive, user-friendly design allows operators to switch between settings in seconds.

The RapidTrak system is available on select two-stage Sno-Thro® models.

- Built for high altitudes, this EFI-powered machine will deliver the performance you need and exceed your expectations
- Premium features like an LED light bar and headlight, hand warmers, electric chute control, electric start, and commercial-grade skid shoes
- Ariens® exclusive Rapidtrak™ technology is capable of tackling any terrain
